

Tableau Interview Questions

- Q1) What is data visualization and Tableau?
- Q2) How does Tableau imports data from the database and flat files?
- Q3) Is Tableau a better replacement for R, SAS?
- Q4) Can we create more charts than the available ones in Show me?
- Q5) Name a few custom charts which can be created in Tableau?
- Q6) What are the new features available in Tableau?
- Q7) What is Tableau Prep? Is it an integrated feature in Tableau Desktop?
- Q8) What are the different requirement gatherings used in Tableau and other projects?
- Q9) What is the estimated time for a project?
- Q10) Can Tableau connect to cubes and cloud databases?
- Q11) Can Tableau connect to the heterogeneous database and flat files at the same time?
- Q12) How do you publish or share the Tableau workbook with your end users?
- Q13) Tell us about one of the most challenges you faced in your Tableau career.
- Q14) What are the ideal ways to visualize time data?
- Q15) What is Tableau tool?
- Q16) What is Tableau Course objective? Understand the main Tableau interface
- Q17) Why should you learn tableau?
- Q18) To whom tableau is suitable
- Q19) Job opportunities in tableau
- Q20) Would we be able to utilize non – utilized sections (Columns which are not utilized in reports but rather information source has segments) in Tableau Filters?
- Q21)What is advantage of Tableau separate document over the live association?
- Q22)How to join two exceed expectations documents with same fields yet extraordinary information (diverse years)?
- Q23)Max no of tables we can participate in Tableau?
- Q24)What is the distinction among joining and mixing in Tableau? Participates in Tableau:

Q25)What are Dimensions and Facts?

Q26)Would we be able to put an exceed expectations document in a common area and utilize it to build up a report and revive it in ordinary interims?

Q27)What is the contrast between warmth guide and tree outline?

Q28)What is the distinctive among twb and twbx record expansions. If it's not too much trouble clarify.

Q29)What is double pivot?

Q30)What is mixed pivot?

Q31)What makes Tableau programming emerge?

Q32) How would we do testing in Tableau?

Q33)Would you be able to get esteems from two distinct sources as a solitary contribution to parameter?

Q34)What number of ways we utilize parameters in Tableau?

Q35)What is the utilization of new Custom SQL Query in scene?

Q36)What are the contrasts between Tableau Software and Traditional BI instruments?

Q37)What are the similitudes and contrasts between Tableau programming and Palantir?

Q38)How to make falling channels without setting channel?

Q39)Is Tableau Software useful for a key obtaining?

Q40)How to show top 5 and last 5 deals in same view?

Q41)Structure a view to demonstrate district savvy benefit and sales.I did not need line and bar visit ought to be utilized for benefit and deals. How you will plan and please clarify?

Q42)How to add custom Color to Tableau?

Q43)How might we consolidate database and level record information in scene work area?

Q44)What is disaggregation and conglomeration of information?

Q45)What Does TABLEAU do?

Q46)What is Tableau Public?

Q47)What is information displaying?

Q48)What is your day by day work process in scene?

Q49)What is parameter in Tableau ? What's more, how it works?

- Q50) How does Tableau perform with colossal datasets?
- Q51) In what capacity will you distribute and plan exercise manual in scene server?
- Q52) Characterize the names for parameters ,channels and so on...
- Q53) How to see sql which is produced by Tableau Desktop?
- Q54) What is page rack?
- Q55) What are the real contrasts between scene rendition 7.0 and scene variant 8.0?
- Q56) How to make filled maps?
- Q57) Is Parameter have it's dropdown list?
- Q58) How to amend SQL Performance for created Dashboards?
- Q59) Assume my permit terminates today, can clients ready to see the dashboards or exercise manual which I distributed in server before.
- Q60) Imagine that I am utilizing Tableau work area and have a live association with Cloud time hadoop information. I have to press F5 to revive the representation. Is there in any case to naturally revive the perception each x minutes as opposed to squeezing F5 inevitably?
- Q61) What Tableau Desktop is?
- Q62) What are the contrasts between Tableau Software, GoodData and Traditional BI (Business Objects, and so forth.)?
- Q63) What is BI?
- Q64) What are all the different data types in Tableau?
- Q65) What are Measures in tableau?
- Q66) What are Dimensions in tableau?
- Q67) What is Context filter?
- Q68) What are all the different types of filters in Tableau?
- Q69) What is a Page Shelf in Tableau?
- Q70) Name the products given by tableau?
- Q71) Please Explain the difference between .twb and .twbx files?
- Q72) What is mean by Joins?
- Q73) What are the different types of joins in Tableau?
- Q74) What is the maximum number of tables you can join in Tableau?

- Q75)What is Live Data connection?
- Q76)What is Extract Data connection in Tableau?
- Q77)What is the advantage of using Extract data connection over Live data Connection?
- Q78)What are all the shelves we have in Tableau?
- Q79)List down the widely used map services in Tableau.
- Q80)What is WMS server?
- Q81)What are all the different type of maps available in Tableau?
- Q82)What do you mean by Data Blending in Tableau?
- Q83)What is sets in Tableau?
- Q84)What is groups in Tableau?
- Q85)What is Parameters in Tableau?
- Q86)What is Dual Axis?
- Q87)What is Tableau Data Engine in Tableau?
- Q88)How to create a calculated field in Tableau?
- Q89)Name few Dashboard components in Tableau.
- Q90)Is it possible to view to 10 records & last 10 records in single View?
- Q91)What is Heatmap & give its advantages?
- Q92)What is Tree Map?
- Q93)What is Blended Axis?
- Q94)Will a parameter accept data from 2 different data sources?
- Q95)What is Custom SQL in Tableau?
- Q96)Do Tableau support Pin codes?
- Q97)What is Aggregation in Tableau?
- Q98)What is Disaggregation in Tableau?
- Q99)Is it possible to do performance testing in Tableau?
- Q100)What is Web Dashboard component in Tableau?
- Q101)Is It possible to combine a flat file with data from a database?

- Q102)What is Data Modelling?
- Q103)How to add custom colour in Tableau?
- Q104)What is a TDE file?
- Q105)Is it possible to automate reports in Tableau?
- Q106)What is Story in tableau?
- Q107)What is discrete data in Tableau?
- Q108)What is Continuous data in Tableau?
- Q109)What is Published Data Sources in Tableau?
- Q110)What is Embedded Data source in Tableau?
- Q111)What is the maximum number of observations that Tableau can handle?
- Q112)What does the Tableau Prep do?
- Q113)What are Pre-requisites to learn Tableau Developer?
- Q114)What is Data Visualization and why important it is?
- Q115)What is Tableau? Reasons why Tableau?
- Q116)Explain Design Flow of Tableau?
- Q117)Explain the difference b/w Tableau desktop and Tableau Server?
- Q118)Explain different types of Joins present in Tableau?
- Q119)How do Union data in Tableau?
- Q121)John is the Marketing Manager, he need to analyze the business by doing visualization from two tables
“Revenue” and “Business Unit” from excel data source in tableau. Please provide steps
- Q122) How to organize and customize data folder?
- Q123)What is the difference between Join and Blending?
- Q124)What is the difference between Live and Extract?
- Q125)What are the File Extensions in Tableau?
- Q126)What are Dimensions and Measures?
- Q127)What is meant by Discrete and Continuous in Tableau?
- Q128)Primary Pre-requisite for Data blending operation in tableau?

- Q129)What are filters? Name the different filters in Tableau?
- Q130)Explain the difference between Quick filter and Normal filter?
- Q131)What all aggregated function used in Tableau?
- Q132)What is an alternative name that can be assigned to a field or to a dimension member?
- Q133)What is the Type of axis in tableau?
- Q134)Difference between Dual Axis and Blended Axis?
- Q135)Elaborate your work experience in Tableau?
- Q136)Having a data from 01/01/2013 to YTD Time period(Today's date), Now want to create a view based on this data but in the view only the latest date data should reflect(i.e. only today's data)
- Q137)How to create a product sales column where the sales for the product are the same irrespective of the sub-product in the view.
- Q138)Difference between Excel and Tableau Data Visualization?
- Q139)How to change the data type of Measure, Dimension?
- Q140)What is Aggregation, disaggregation?
- Q141)When we go for Line chart?
- Q142)When we go for TreeMap Chart?
- Q143)How to create Hierarchy?
- Q144)If I have identical data values. How to do Rank (Unique) for identical data points in data values?
- Q145) User is a part of South region, he needs to see only south data? How to implement?
- Q146)I have a separate column of the year, Month, Day? I need Year_Month_Day format. How to implement?
- Q147) Which chart shows "Present year sales" and "Previous year sales" based on region?
- Q148)How to Show Pie Chart for Customers as Top 10, Top 11-20 and Others
- Q149)Explain how to remove subtotals for unwanted columns?
- Q150)Performance tuning of Dashboard?
- Q151)Explain steps to attach User guide manual in tableau dashboard?
- Q152)What is Extension of Extract?

Q153) Explain Tableau Report Development process?

Q154) Can we save excel data source in tableau?

Q155) Can we apply worksheet level and global filters in the dashboard?

Q156) How to publish a dashboard to Server?

Q157) Difference between Excel and Tableau Data Visualization?

Q158) Can we change data type of Measure, Dimension in Tableau?

Q159) What is Aggregation, disaggregation?

Q160) When we go for Line chart?

Q161) When we go for TreeMap Chart? How to create Hierarchy?

Q162) If I have identical data values. How to do Rank (Unique) for identical data points in data values? How do I get particular sales without calculation field?

Q163) User is a part of South region, he needs to see only south data? How to implement?

Q164) Which chart shows "Present year sales" and "Previous year sales" based on region?
